Free Online Training Program

Free Online Training Program

Objectives

Keeping in mind the present scenario where providing offline training is getting difficult due to COVID-19 pandemic, the online training programmes are one of the most suitable modes for imparting knowledge.

Free Online Training Programmes from Spoken Tutorials IIT Bombay are launched with the intention to match opportunities in industry with learning needs of fresh minds.

The program intends to fulfill the twin goals of providing online learning experience to youth as well as industry with infusion of fresh energy and ideas to solve critical challenges and achieve the objective of New Education Policy 2020.

With this initiative, Digital India will be able to harness its demographic dividend as the country attempts to leapfrog into a 5 trillion-dollar economy.

• Exposure to young minds to enhance their professional development through online learning followed by assessment and certification.

• Harnessing fresh energy and ideas of young minds towards upgrading their skills for better career opportunities.
